

Overview

This half term we will be looking at space, the Earth, Moon and the Sun. We will be exploring what is in space, what makes Earth special and what would an alien look like.

Important words

Earth	The planet where we live, the world.
planets	A large round object that is in the sky
stars	A huge, glowing ball of gas
Moon	A dusty, ball of rock that travels around Earth
space	A large area filled with planets and stars
rocket	A jet vehicle that travels into space
astronaut	A person who travels to space
alien	Something that lives on another planet.

Books we like to share

Questions we will ask:

What is in Space and how will we get there?

Which planet do we live on?

What are the planets called?
How many planets are there?

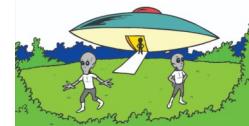

What would it be like to visit the moon?

What are stars?

What would an alien look like?

Can we live on the moon?
